My Motion for Extension of Time to file my Notice of Appeal of the Sunnova Plan.

Incredibly, I could not find an appeal by anyone else, and this is my Hail Mary.

Not allowed to file electronically, I snail-mailed my motion on 12/15/25, much later than planned. As described in my motion, I had to wait for a new printer to arrive, my local post office can't do Express Mail, I'm 60 miles from a real post office, and I had to get the rental house I manage ready for guests arriving on 12/16. Trying to supplement my $306 Social Security.

My Motion was filed on 12/19/25 in the bankruptcy court.

The link to my Motion at the claims administrator Kroll docket:

One of many issues with Kroll is its horribly designed website. In case the link does not work, here are the scanned motion, declaration and exhibits filed with the court:

Since I had to file by snail mail, and scanned and printed documents are hard to read, below are the searchable, more organized motion, declaration, and exhibits.
